

THE #1 CHOICE FOR MUNICIPALITIES AND GOVERNMENTS

When Public Safety is Job 1 – IGGYTRAP™ is the Only Choice

The Iguana population is exploding and it is causing millions of dollars in damage each year. IggyTrap™ was designed and has been proven to be the best short- and long-term solution in Iguana remediation.

The Advantages of IggyTrap™:

- Allows for the elimination of guns that can cause panic – In favor of a more effective, discrete, and humane solution
- Safe – No risk to the public or domestic pets
- Extremely Effective in Reducing the Iguana population
- No Public/On Site Euthanasia
- Quiet Operation and Camouflage – Inconspicuous Trapping
- Proven Track Record of Performance

IGGYTRAP™

Florida's Iguana Solution

SCAN FOR SERVICES

IggyTrap™ is the only multi-capture trap designed to be discreet, non-intrusive and blend into the natural landscaping and catch ONLY Iguanas. The perfect solution for “Gun Free” areas like – Municipal Parks, Golfs Courses, Schools, Beaches, and public spaces where the use of guns will cause public distress. IggyTrap™ is humane and will not harm the iguanas while they're in the trap.

NEW! IggyWrap™ - The Preventive Solution

- Prevents Iguanas from Climbing Trees
- Eliminates a Critical Part of Their Habitat
- Does Not Harm the Trees
- Lightweight, Durable, Clear Polymer Almost Unnoticeable
- Fits Almost Any Size Trees
- Weatherproof
- Prices start as low as \$25/tree

Captures Dozens of Iguanas at a Time... Depending on Their Size!

IggyTrap™ is a Patent Pending, modular design allowing for multiple trap configurations to accommodate any property. IggyTrap™ will capture dozens upon dozens of iguanas at a time, making it the most economical and effective method for managing the ever-growing iguana population.

One of the key design features of the IggyTrap™ is it is installed on a semi-permanent basis. This allows the trap to actively trap iguanas 24/7/365 before they have a chance to do any damage to your property. When the trap is serviced, the holding compartment is simply exchanged out, taking only a few moments to complete so to minimize any disturbance to patrons.

IggyWrap™ is a lightweight, durable, clear polymer that prevents iguanas from climbing trees.

Let IggyTrap™ Develop an Effective Mitigation Program for You Today!

Florida needs a innovative solution that can be deployed on a major scale that will significantly reduce the Iguana population. IggyTrap™ was designed to:

- Active 24/7/365
- Captures ONLY Iguanas
- Inspected in accordance with FWC regulations
- Non-intrusive Servicing
- Weekly/Monthly Trapping Reports (as Requested)
- Meets FWC Regulations
- Direct Line of Communication
